## Southall Community Alliance Annual Report 2014/15

### Chair's report

Last year we welcomed some positive developments in Southall. “After years of closures and decline the investment in facilities is visible. Improvement in sports facilities with a new pavilion in Spikes Bridge Park, development of Southall Boulevard, new car parks, additional facilities at the Dominion Centre, official launch of the new Dormers High School, housing on the sites of Phoenix house and old public houses, the ongoing construction of churches, mosques and temples.”

We also noted our concerns. “These additions to our communities have and will continue to provide us with challenges too. The demographics with high concentration of an ageing community with an equally large share of young people will stretch the health service, education, police and other social service providers particularly the voluntary community sector. “

The events of 2014-15 could not have provided a bigger contrast to the hope and aspirations presented last year. The much heralded Southall Boulevard failing to live up to the artist's impressions sold to the communities. The massive development of flats at Phoenix House without any mention of the “S106” planning gains. The closure of Southall Library and its facilities. The introduction of additional costs for hall hire at the Dominion. The inaccessibility/affordability of facilities following the sale of Southall Community Centre. The lack of replacement of the Albert Dane Centre for people with disabilities. The disappointing disconnect for the community with the facilities at Spikes Bridge Park. The lack of progress at The Manor House since July 2010 to return it to community use. Penny Sangam a legacy of Southall's health provision closed and sold to private developers. Ealing Hospital reduced to a skeleton of the NHS provision. All in the name of austerity!!

During this year the much reduced provision of community facilities has come under further threats. Under what can best be described as constructive closure the basic security is now removed from Southall Town Hall. As we go to press this iconic building, the identity of Southall's tradition and history is being prepared for sale. How can we forget the 342 arrested and the death of Blair Peach on 23rd April 1979 to rid the fascists from Southall's Town Hall. It is ironic that the same political administration that assisted the SCA in saving the Town Hall should now be considering its sale. Along with the Manor House, Southall Town Hall represents the last publically owned shared community space in Southall.

SCA exists as an organisation for articulating the common vision and interests of Southall's diverse communities. We shall stand as one to head off the challenge. For over forty years we have collectively resisted attempts to divide our communities and develop identity based community centres as evidenced in other parts of UK. This is a hallmark of our values and beliefs. It underpins Southall as a place for all. The common spaces must remain just that. The sale of Southall Town Hall will not just effect the present community, but also the generations to come.

The existing provision for our senior citizens at the Southall Day Centre is in jeopardy following the latest round of funding announcements. The SCA stands in solidarity with all our partners struggling for survival. We recognise the massive contribution made by all the community, voluntary sector organisations and volunteers. Southall community owes you all an enormous debt of gratitude. Thank you.

Our dedicated team of staff Janpal Basran, Suki Kaur, Babie Kapoor, Bishara Mohamud and Manjit Rooprah, Zeina Mehio, Jacqueline Sear, our wonderful volunteers, fellow board members, our partners and funders have enabled us to deliver on our promises. We thank you for making it all possible. Let us continue the journey together, united and confident in our ability to serve all our communities.

**Harsev Bains**  
**SCA Chair**

## **Southall Community Alliance Annual Report 2014/15**

### **SCA Work Report 2014/15**

In spite of many expected funding changes and challenges, 2014/15 proved to be another productive year for SCA. This report will summarise our main achievements and identify the issues that affected SCA including the work of the staff team, finance matters, our role in improving community engagement and health outcomes for local residents and the various ways in which SCA continues to act as a voice for local communities.

### **Staffing**

The staff employed during this period included : Suki Kaur, Babie Kapoor, Bishara Mohamud, Manjit Rooprah, Lush Gill, Jackie Sear and Zeina Mehio. Suki, Babie and Bishara had been working for SCA for a number of years and Manjit was employed initially on the Communities Against Diabetes project. Lush Gill was employed as a project assistant on our health walks programme. In July 2015 we were approached by the Grand Union Village Community Development Trust about taking over the management of a project working in the Greenford, Northolt and Perivale area. After we agreed to this request both Jackie and Zeina, who had been working in that area, were taken on as part-time SCA employees.

The excellent work of the whole staff team has to be commended and it would simply not have been possible to deliver such a broad range of work without committed colleagues, who were so often prepared to work at times and at venues that offered the best possible interaction with residents. The efforts, professionalism and dedication of the team were much noted and appreciated by our partners.

### **SCA Finances**

Our ability to maintain a firm control over our finances was an important feature of a year in which many voluntary sector groups experienced considerable hardships. Local and regional funding cuts combined with reduced grant funding opportunities have placed an enormous strain upon voluntary groups, especially those working with very disadvantaged residents.

SCA continued to rely upon funding from a range of different projects to provide an important contribution towards our operational costs and help compensate for reductions in core funding from larger individual funders.

In this environment our ability to attract new funding and diversify our income sources was a major achievement, enabling us to continue providing value for money outcomes for local people. We have to acknowledge the wonderful and much valued support of all our funders including : Ealing Council, John Lyons Charity, Hounslow Council, Ealing Clinical Commissioning Group, Heathrow Community Fund, City Bridge Trust, Trust for London, People's Health Trust and Tinder Foundation.

During the year the SCA office worked closely with our Treasurer, Michael Bolley, to revise our internal financial controls and establish new financial management practices designed to help

## Southall Community Alliance Annual Report 2014/15

improve the way we scrutinised our finances. Michael spent a considerable amount of time in the SCA office providing his guidance and oversight, a fact much valued by staff and other trustees alike. We must also record our appreciation to our auditors, Rehncy Shaheen, for their help and scrutiny during the year.

**Dr Raj Chandok talking to participants at the 'Samba in Southall' event on 12 June 2014, as part of National Diabetes Week programme Ealing.**

### SCA Resource Centre

The provision of free community access to hot desk space, free internet and printing is something that has been almost unique to SCA over the past decade. Having made a conscious decision that the organisation needed to support groups facing multiple hardship and not implement a pricing regime, we found that many groups continued to use Resource Centre facilities on a regular basis.

During 2014/15 we had approximately 1900 visitors and the SCA Centre was used by various groups, on a regular or occasional basis, including : Southall Black Sisters, British Keralites Association, Education & Social Group, Somali Advice and Development Centre, Helplink, Mencap, Samafal Community Association, MAAS, Indian Workers Association, Slavic and Baltic Community, Punjabi Theatre Academy etc.

The provision of this form of capacity support for groups is not simply a reflection of our desire to help them in practical ways but also confirms our commitment to improve community cohesion by ensuring equal access to all and offering visible proof of different communities working alongside each other.

## **Southall Regeneration**

There is a growing acceptance that Southall now has a historic opportunity to benefit from once in a generation huge local developments that will have a transforming effect on the town. Our work to promote and shape local regeneration initiatives through local fora such as the Southall Partnership, highlights how important it is that Southall derives the maximum benefit of these opportunities for local residents and groups.

Some of the main achievements and developments were :

- SCA and LBE Regeneration team working to co-ordinate the Southall Partnership. We need to thank numerous colleagues and stakeholders for this, including Shehzad Ahmed, Parveen Thethy, Catalyst Housing, St James, Southall College, University of West London, Met Police and various LBE departments
- Havelock Estate redevelopment
- Southall Broadway street improvement programme
- Southall Gasworks site owners, St James, establishing more of a presence in Southall with work likely to start on the site in 2016/17
- 'Southall Loud and Proud' campaign with W5 Productions and Jags Sanghera being instrumental in arranging many summer street based activities
- Imminent start of work on new Crossrail link in Southall
- SCA and Southall Black Sisters working with a range of partners to promote our own White Ribbon Campaign.
- Round 2 of the Southall Micro Fund scheme

## **Spikes Bridge Park**

The creation of the new sports pavilion and changing room facilities in Spikes Bridge Park was rightly hailed as an enormous achievement for our area. The innovative partnership between LBE, London Tigers and SCA lead firstly to the re-building of the pavilion and then, on 7 April 2014, the new full size artificial football pitch was officially opened. These superb facilities are managed by London Tigers and the pitch has generated a huge amount of initial attention, not all of it always welcome but staff and volunteers were able to adapt to this increased profile and we anticipate improved usage of the facilities in years to come.

## **Neighbourhood and Community Development**

Known internally as the 'Area Fund' project, this is a council funded neighbourhood and community development initiative involving SCA, Ealing CVS, Greenford, Northolt & Perivale Community Federation, Lido Centre and Acton Community Forum. This area based project has been running since 2011 and has delivered a wide range of outputs in each part of Ealing. This has included community consultations, youth work, community safety, health projects, delivering arts/cultural

## Southall Community Alliance Annual Report 2014/15

events etc. During the year the project was able to help over 20,000 Ealing residents and the main outcomes were :

- Securing involvement of many VCS groups in the public service commissioning process
- Providing forums where residents could input into consultations and proposals affecting their neighbourhoods
- Developing Women's Forum work via the GNP Federation
- enhancing levels of social and cultural understanding and interaction between residents of different faith and ethnic groups
- developing projects that improved health and leisure facilities/services in all Area Hubs
- greater level of community involvement in local regeneration work and in supporting development of Neighbourhood Planning process
- Area Hubs leading on showcasing efficiencies to VCS, through 'lean review'
- Ongoing and developing widening of voluntary sector opportunities to engage with arts, culture and heritage
- Helping people to work together with skills training and support to become community advocates to take on management of community centre's, enabling participation in networks/residents associations/Ward Forums etc

**Southall Black Sisters delivered an outdoor drama performance, on 27/11/14, as part of the 'White Ribbon' campaign in Southall.**

In the GNP area Jackie Sear was responsible for some important work in terms of :

- Supporting four residents associations

## Southall Community Alliance Annual Report 2014/15

- arranging training for community leaders
- accredited training on safeguarding, food hygiene and first aid
- Greenford Market, in partnership with Ealing Council
- Greenford Carnival stall
- Cross borough women's forum work
- involvement in planning for a community hub / hostel in North Greenford

### Health Improvement

The past year saw crucial changes taking place at Ealing Hospital and since the majority of hospital users were from Southall, these changes were likely to have the greatest impact in the west of the borough. SCA was one of many organisations opposed to plans to downgrade the site to a 'local hospital', with reduced A&E capacity and further proposals to remove the maternity unit and reduce paediatric services.

However, once the disappointing decision about the future of the hospital was confirmed we returned our focus to the health improvement work that we could deliver, including :

**Communities Against Diabetes (CAD)** - The twin aims of the project were to improve primary prevention of diabetes and aid earlier diagnosis of the condition. The project assisted hundreds of Ealing and Southall residents with diabetes health checks, information provision, outreach stalls at schools/places of worship and distribution of a large quantity of diabetes awareness information.

Some of the projects more important outcomes were :

- Helping people understand Type 2 diabetes risks
- Improved early diagnosis through extensive outreach to affected /at risk communities
- Reduced duplication and improved co-production with other projects
- Disseminating information and resources to ensure that diabetic patients made informed choices and had an input into their Diabetic Care Pathway

**Diabetes Week (2014)** – following from the CAD project, SCA delivered a week long programme of anti-diabetes work in June 2014. Our programme include diabetes street stalls at different Ealing venues including Acton High Street, Greenford Broadway, Southall Green, Southall Broadway etc and culminated in the 'Samba in Southall' sports event on 12 June at Spikes Bridge Park. Featuring football teams from Ealing CVS, Eallo Centre, Ealing CCG, Met Police, Jags Allstars, Southall College, London Tigers and SCA, we arranged a fun filled day of activity that combined information provision with various forms of physical exercise and health checks.

**Female Genital Mutilation (FGM) project** – our FGM project, called 'Breaking the Silence', finally came to an end in 2014. This work, over 4 years, had been funded by the Trust for London and gave local prominence to an issue that has gained increasing national significance as a child protection and health matter.

The issue of FGM which was once regarded as a taboo subject is now discussed more freely and there is a widening appreciation of the child protection and legal consequences of involvement in

## Southall Community Alliance Annual Report 2014/15

FGM. During the year Bishara Mohamud and Suki Kaur worked to arrange activities and maintain project profile through :

- co-ordinating meetings of the FGM Steering Group which later began to be chaired jointly by SCA and LBE
- Joint delivery of FGM training for professionals in Ealing
- 'Open Space' event at Pitzhanger Manor on 22 September 2014, attended by 40+ people and with Home Office involvement

**SCA arranged a very successful Open Space FGM event at Pitzhanger Manor in Ealing on 22 September 2014.**

**Hounslow walks scheme** - SCA completed the 'Walk to Health' project that had been established in Hounslow. The project involved working in areas of Hounslow that were affected by high levels of deprivation and with diverse communities who were associated with low levels of physical activity. These walks took place at the following venues: Cranford Park, Heston Park, Norwood Hall, Inwood Park and Osterley Park and attracted over 80+ walkers per week.

**Health Commissioning** - This was the third year of this Ealing Council project to deliver exercise classes, yoga and health workshops for older people. We worked with Southall Day Centre, Global

## Southall Community Alliance Annual Report 2014/15

Development Aid Trust, Helplink and Catalyst Housing to arrange activity sessions for vulnerable and isolated Ealing residents. Each quarter this project benefitted approximately 150 beneficiaries at different Ealing locations.

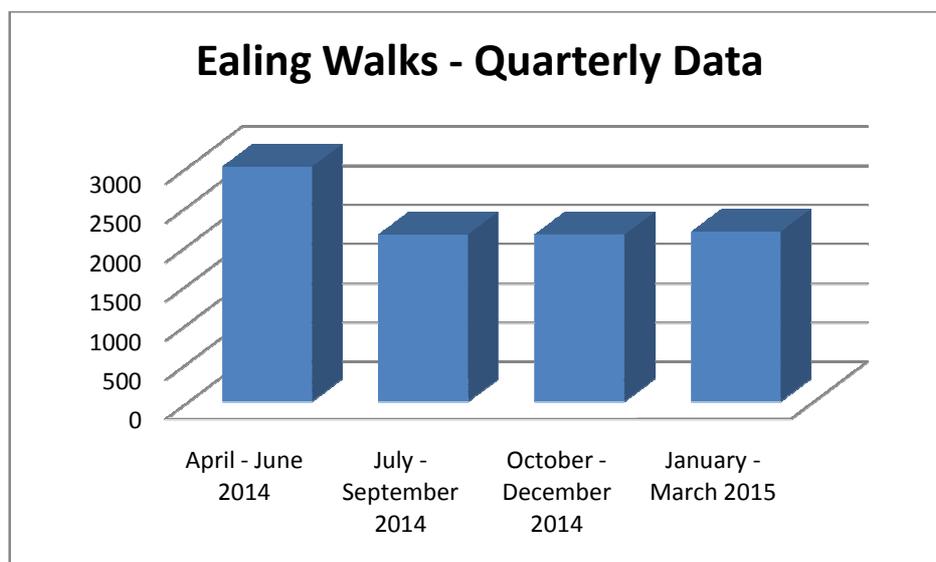

**‘Active Southall’ project** – focussed upon the 3 ‘A’s of health promotion : access, awareness and activity. Project activities were delivered at various Southall locations and by a number of different partners who had pre-existing contact with residents with multiple health needs. The project improved access to local health services, enhanced awareness of health conditions to improve prevention and self management and increased the physical activity levels of Southall residents through:

- healthy parenting skills courses
- Outdoor physical activity sessions for young people
- health service signposting sessions for BMER parents to improve their awareness of NHS services, GP’s and screening services.
- Outreach stalls at faith / community venues including Dominion Centre, Dormers Wells Community Centre, Blair Peach Primary School etc
- Adult and young people healthy cooking courses
- indoor/outdoor adult physical activity sessions including women only zumba, elderly yoga etc
- Monthly health awareness workshops arranged by Helplink with over 420+ users

We were also involved in a number of one-off events that promoted lifestyle change information to large audiences :

- Vaisakhi stall (6/4/14)
- SCA charity bike ride (20/7/14)
- Southall Playday (13/8/14)
- Nagar Kirtan procession (23/10/14)
- Ealing Hospital health fair (31/10/14)
- Onam festival (20/9/14)
- World Diabetes Day (14/11/14)

**Healthy Walks project** - SCA continued to co-ordinate the borough wide health walks scheme, from different venues, as we sought to increase the physical activity levels of inactive residents. The physical benefits, in terms of weight loss and reduced health risks, were combined with the positive impact on mental well being through participation in an outdoor group activity. Each walk lasts for between 30-45 minutes and was led by a trained walks leader. The walks took place at Southall Park, Bunny Park, Walpole Park, Medlar Farm Estate, Northala Fields, Ravenor Park, Norwood Hall, Recreation Park etc and attracted 200 – 240 walkers each week. In the last quarter from January – March 2015 there were 546 male and 1618 female walkers, in total.

**GNP Project** – In July 2014 SCA took over the management of the Greenford, Northolt & Perivale Community Federation. There were two distinct areas of work, one covering community development and engagement initiatives and the other covering public health activities in the target area. Zeina Mehio was responsible for the delivery of community based public health work in the areas of Greenford, Northolt and Perivale and this was achieved through

- Healthy living events
- cooking classes and healthy nutrition sessions
- Dr Bike sessions
- Talks and activities in the community by from NHS health promotion specialists to raise awareness about TB, Bowel cancer screening and other health issues
- diabetes health checks

Other activities include:

- Delivering health promotion leaflets, posters and booklets to local community centres, children's centres and residents' association's to promote awareness of the various NHS health promotion campaigns like Cancer awareness, TB awareness, Diabetes, Know your numbers: Blood Pressure and Change for Life campaigns.
- Running Health promotion stalls at local community fun days and carnivals: for example Greenford Carnival and Grand Union Village fun day
- exercise sessions: including "ladies only" Zumba classes, Otago classes for older residents, and healthy walks led by SCA walk leaders
- Organising Health Zones by inviting NHS specialists and health organisations to run stalls at local events for example the GNP health Zone at Rectory Park Playday. Fourteen health services and organisations attended the health zone like: RISE, British Heart Foundation, Macmillan Cancer, Ealing health trainers, Boost, Smoke free Ealing and many others.
- promotional work at Spikes Bridge Fun Day and World Diabetes Day

## Southall Community Alliance Annual Report 2014/15

**LBE mental health project** – this was a 12 month project to deliver a range of interventions targeted at those most at risk of mental illness and help them create connect with new people, promote greater levels of physical activity and engage in group learning sessions. We worked with People of the Road, Healthy Self, London Tigers and Mael Gael with the intention of creating long term behaviour change resulting in better self reported well being by participants. We had 206 beneficiaries for this project

**‘Pungra Fit’** – towards the end of the year we successfully applied to the Mayor of London’s Play Sport Scheme to deliver a 10 week ‘pungra fit’ programme of dance based activities for residents seeking to improve their physical activity levels. The very popular sessions were arranged at Southall Sports Centre and were delivered by Ravi Sandhu, attracting between 15-20 users per week.

### UK Online Centre

SCA is a registered UK Online Centre and has been running free IT sessions since 2013 funded by the Tinder Foundation. During this year, in partnership with Helplink, HADEA and Samafal Community Association, we registered 633 people on learn my way and 350 people through Capture IT from October 2014 to March 2015. This is a significant number of people assisted in a relatively short period of time.

### Fundraising Work

2014/15 was an eventful year for fundraising with new opportunities for funding and a change of approach for the fundraising project. Our fundraising officer, Suki Kaur, ensured that a range of funding bids were submitted during the year. A smaller number of applications were submitted for small organisations, as there were less small grants schemes. However, there were opportunities for larger applications to be submitted by consortia and partnerships, which has been a useful way to attract funding for smaller organisation’s. It has been a difficult year due to the diminishing grant opportunities for small grassroots organisations but an exciting year which has seen the development of new, and strengthening of, existing partnerships.

#### Mental Health Promotion Grant

- This project continued to support women from minority communities, the traveller community, elderly people and unemployed people engage in activities which promote positive mental health. Based upon the 5 ways to well being, developed by the New Economics Foundations the project encouraged those at risk of ill mental health to: Give, stay active, keep learning, take notice and Connect.
- Grants in the region of £70,000 have been secured from small grants schemes such as , Awards for All and Trust for London, Ward Forums and other small funders These have benefited groups such as Focus Forth, Getting Together, Pearl Education, MADE TV etc.

The fundraising Officers post has changed this year to include overseeing a number of our consortia projects as well as continuing to provide funding support to small organisations. In

## Southall Community Alliance Annual Report 2014/15

partnership with other voluntary sector organisations the Project Officer has now started to support small organisations from across the borough to seek alternative small grants now that the LBE small grants stream has diminished. This is an area of work which is likely to continue over the next year.

The jubilant 'Traveller Titan's' football squad, winners of the Spikes Bridge Park Sports Day on 4/10/14, that was arranged by SCA.

### Child poverty - John Lyons- Assisting Children Together (ACT) project

Poverty affecting children remained a key focus for us this year. At a local level Southall has pockets of severe income deprivation and particular wards have seen a huge decrease in income over the last few years. Our John Lyons's project work has been focussing on grass roots organisations to ensure they are adequately resourced to provide support for families with children who may be affected by poverty. This work has included :

- creating links between organisations and Ealing Council staff who have been instrumental in developing the Child Poverty strategy and toolkit
- targeted fundraising,
- Encouraging organisations to respond to this challenge by developing their own strategies
- ensuring organisation's to be aware of the menu of services (food banks, two year old school places etc) and support available across the borough.
- developing local training opportunities for organisations who currently do not have access to these.

## Southall Community Alliance Annual Report 2014/15

- Working with local schools and children's centres so they too are aware of the range of support available through the local voluntary sector

Organisation's supported through this project include:

Helplink, Focus Forth, HADEA, SADC, ESG, Sofale – all of whom support families and children either through advice work or direct support to children and young people locally.

We will be seeking funding to provide additional services to address the issue of poverty affecting individuals, children and families in the coming year.

### Community Engagement

One of SCA's key roles is to provide leadership and a community voice. Inevitably in a town as diverse as Southall there will be different views and opinions about issues but SCA has always sought to create better awareness and achieve consensus about the key matters affecting our communities.

**Community Forum** – the SCA Community Forum remains one of our main platforms for engaging with residents on matters of local importance and providing them with the opportunity to voice their opinions and shape the way that services are provided. During this year we arranged four Forum meetings on 27 March, 7 May, 20 August and 26 February 2015. Our guest speakers included Dr Raj Chandok (Ealing CCG), Meena Patel (Southall Black Sisters) and Martin Smith (LBE Chief Executive) and covered issues such as local health provision, future of Ealing Council and development of Southall Gasworks and violence against women. The meetings were attended by 119 residents in total and attending organisations included : Anti Tribalism Movement, Unity of Faiths Foundation, Samafal Community Association , Horn of Africa Disability Elderly Association, Indian Workers Association, Punjabi Theatre Academy, Helplink, A Rocha, Southall FC, London Tigers, MAAS etc.

### SCA Trustees

SCA has a committed and experienced Board of 12 trustees, some of whom have been involved with the organisation for many years. SCA trustees are recruited annually from amongst the SCA membership for a term of three years. The groups currently represented on our Board are: Havelock Family Centre, Indian Workers Association (GB), MAAS, Holy Trinity Church, Southall History Society, Helplink, British Keralites Association, Mahila Sabha, EREC and Somali Advice & Development Centre.

Our volunteer trustees continued to act as our 'critical friends' and special thanks must go to the honorary officers Harsev Bains (Chair), Balvinder Chahal (Vice-Chair), Michael Bolley (Treasurer) and Amir Fouladvand (Company Secretary).

**A very attentive audience at our Community Forum meeting on 7 May 2014 at Southall Town Hall.**

### **Partnership and Thanks**

Many of our achievements were due to our positive working with partners, either on an on-going or one off basis. SCA has long enjoyed a good relationship with a large number of groups and this has helped to sustain them and demonstrate the important role that local voluntary groups play in helping our residents and communities.

Some of key partners and contributors during 2014/15 were :

Mahila Sabha, Helplink, London Tigers, Ealing CVS, Acton Community Forum, Mencap, GNP Confederation, Lido Centre, Somali Advice & Development Centre, Dormers Wells Trust, Greenfields Children's Centre, Horn of Africa Disability Elderly Association, MAAS, Education & Social Group, Mael Gael, Southall FC, Tamil Community Centre, Global Development Aid Trust, Samafal Community Association, Slavic & Baltic Community etc.

We look forward to continuing work with these and other partners in the coming year, raising the profile of work that community groups deliver in Southall and confirming SCA's role as an important infrastructure hub.
